

# Sea Freight

Sea Freight can be a complicated matter, especially when the cargo being shipped will not fit into any conventional tariff structure.

Ocean Sky is there to expedite shipments of all sizes and materials.

Using only the most reliable liner services and our in-house advanced IT system, we provide you with accurate and timely information between points of origin and destination.

We accommodate virtually any shipping schedule, and any size, from full to partial containers. Combine that with our own warehouse to consolidate shipments and you have unmatched flexibility.

## The Ocean Sky Advantage

Flexible scheduling

Leveraged pricing

Fastest routing possible

Consolidation Services

Worldwide service

## International Moving

Moving internationally can be such an exciting event. Our aim is for you to relax and enjoy the excitement of the move whilst the more complex aspects are taken care of by our professional and friendly staff.

**Every move is unique**, your moving solution requires a specialised moving planner to take accountability of your possessions from origin to destination.

This is what we offer at **Ocean Sky**. Our Move Managers are not merely salespeople or logistics specialists. Your first point of contact with our company is the person responsible of managing your shipment right through to its final destination. Our staff are our most valued resource, they are equipped with the sensitivity to look after you and your family's possessions with logistical expertise to arrange every aspect of your move as well as all the best resources to bring these aspects together.

International moving requires a vast amount of specialised planning and resources.

Part of this process includes:

- Packing at Residence
- Local Transport
- Export Customs Clearances
- Sea or Air Freight
- Import Customs Clearance
- Final Delivery to Your Destination Residence
- Transit Insurance

**Ocean Sky International** also holds all government licensing and accreditation that is needed to move goods internationally via sea or air; this includes stringent accountability and transparent procedures.

Rest assured, **Ocean Sky International Movers** is the best and safest choice for you in this exciting journey in your life and for the passage of your valued possessions.

## Air Freight

From anywhere in the world – domestic or international, by air, sea or land – Ocean Sky delivers. Whether it's an urgent consignment or one a little less time critical our professional staff advise you of various options tailored specifically to your needs. Ocean Sky can also advise you of the various security protocols and regulations relevant to the modern world of air freight forwarding.

The Ocean Sky network of freight forwarders is staffed by professionals who are linked by integrated communications technology to ensure absolute accuracy and reliability. The cost savings of such efficiency are significant, as Ocean Sky clients will readily attest.

### Shipping Goods and a Whole Lot More

- Time definite service
- International documentation
- Door to door service
- Banking and letters of credit
- Free domicile service
- Inland transportation to departure point
- Customs clearance
- Worldwide logistics

## Professional Storage

Ocean Sky International operates a Customs bonded and AQIS approved facility close to the port of Brisbane. As an international logistics service provider, one of our many functions is to provide warehousing and storage services.

Our storage services include full packing, inventory, transport, crating and short or long term storage. Store for as long as you need to, we have no set minimum storage periods so you have full freedom without the risk of penalties.

Whether you require pallet storage or floor stacked storage for unusual or oversized goods, we have a storage solution for you.

As for personal and household effects, modern, clean storage vaults is the way Ocean Sky International offers you storage. These robust vaults are especially manufactured to Ocean Sky International specifications and are dust and vermin proof. Individual vaults are just the first step in the security process that ensures the safety of your goods.

**Storage Vault dimensions are:**

External: 1800mm W 2240mm D 2400mm H

Internal: 1710mm W 2160mm D 2180mm H

We also offer you the option of storing your goods in either 20ft or 40ft shipping containers. If you have enough goods to fill one of these containers, depending on your circumstances the container will usually be brought to your home for your goods to be loaded.

Our government approved storage facilities meet the most stringent of security procedures. Our storage facility is clean, modern and incorporates sophisticated alarm and security camera surveillance systems offering you the most modern equipment available in security protection of your possessions.

As a secured facility we do not offer self storage, our professional storage services are best suited to clients that do not require access to their stored goods.

## Motor Vehicles

In many instances it may be cost effective to ship your motor vehicle to your new destination, with or without your personal and household effects.

There are a number of options available to you to ship your motor vehicle overseas, these include:

Exclusive use 20' or 40' containers

Exclusive use 20' or 40' containers grouped with your personal and household effects

Exclusive use 20' or 40' containers grouped with a managed consolidation of personal and household effects

Roll on / Roll off where this service is available

Air Freight

All vehicles are lashed down to container anchorage points with all wheels blocked to avoid any movement. We place the vehicle in 'Park' for automatics and in '1st Gear' for manuals along with engaging the handbrake.

Where motor vehicles are grouped with personal and household goods, a **purpose built** mezzanine timber frame is constructed to not only protect the vehicle but also allows for maximum payload usage.

Once you have made your decision to ship your motor vehicle we can tailor cost effective options that best suit your specific requirements.

By the way, our services are not only limited to motor vehicles alone, our services also cater for:

Motorcycles

Boats

Trailers

Jet Skies

Machinery

Whatever your need, Ocean Sky has the international logistics capability to provide you with a professional solution.

## Insurance

Unfortunately, risk plays a part in any logistics equation. Whilst we take every precaution humanly possible to safeguard your consignment in transit, risk may seriously disrupt transport services.

The competence of Ocean Sky to handle every facet of international movement of goods affords us an ability to deliver extremely cost-effective insurance coverage. And, as part of our full service commitment, we can provide marine and warehouse insurance for everything we ship, from project cargo to household goods.

We can specifically tailor coverage to suit any particular situation. Our connections to the worldwide insurance markets ensures more than favourable rates to our clients. And our ability to quote jobs quickly and accurately gives us a timely advantage in a fast-paced world.

### Complete Cargo Coverage

- Loss against physical damage
- Consequential loss of sales / profits
- Loss against delays and/or damage

## Logistics

We constantly hear that the world is getting smaller however it's still a daunting task for most companies to control the flow of goods across it efficiently.

Efficient logistics can give a company a significant competitive advantage. **Ocean Sky International Logistics** delivers that efficiency with a quality management system unmatched in the industry.

**Ocean Sky International Logistics** integrates all the key components of the distribution network to deliver superior logistics that result in reduced cycle times and significant cost reduction, while freeing the company's management to focus on core competencies.

### Key Components of the Distribution Network

Complete global logistics networks in most worldwide locations

Performance criteria drives delivery process

Existing stocking points and function within the network

Transportation activity throughout supply chain

Inventory management of finished goods

Management information systems for all components

## Project Services

When it comes to complex relocations of equipment and materials, there is nobody better equipped than Ocean Sky International Logistics and its affiliates.

Whether it's a complete power plant, a factory, or very special items that require the utmost attention, we provide the specialised expertise such as logistics capabilities, precise timing, wide geographical knowledge, and global connections to coordinate project cargo movements from origin to destination.

That includes disassembling, packing and shipping, logistics, customs, reassembly and more. And our undying devotion to detail management and security means we can keep rates more than low enough to be competitive.

## Warehousing

Whether it's your goods in transit, or long term storage requirements, **Ocean Sky International Logistics** can help. Our warehouse facility is Customs bonded and AQIS approved and can handle full containers along with palletised and loose goods.

We handle warehousing needs that relate to our shipping services, however we also have domestic clients who use us strictly for our fine facilities.

**Tailoring a solution to your individual company needs is always our ultimate goal.**

We are a 77G Customs Depot
